

ENSTO

Ensto Anna
– A Story of Light

Better life.
With electricity.

Ensto Anna

High Quality luminaire to Public premises

Ensto Anna

Quality of Light combined with unique design.

Ensto Anna luminaires

Ensto Anna is a high-quality luminaire for office and public premise use. With its top-design features it fits perfectly for modern environments where quality of light and an exclusive design are needed.

Anna has two slightly different versions of luminaires with changing shape of the end piece. Geometric one which continues the lines of the profile - fits well to the architectural and minimalistic looks. Whereas rounded endpiece gives much more softer look and fits well with the environments where a softer appearance is looked for.

Ensto Anna, Aava, Avara
-A Story of Light

NEW public premise light system for Ensto Lighting contains triple A series: Anna, Aava and Avara luminaires. It is a collection that fits today's modern office and public environments.

It offers a wide range of possibilities for modern looks. Luminaires are designed in Finland for Ensto by Pentagon Design.

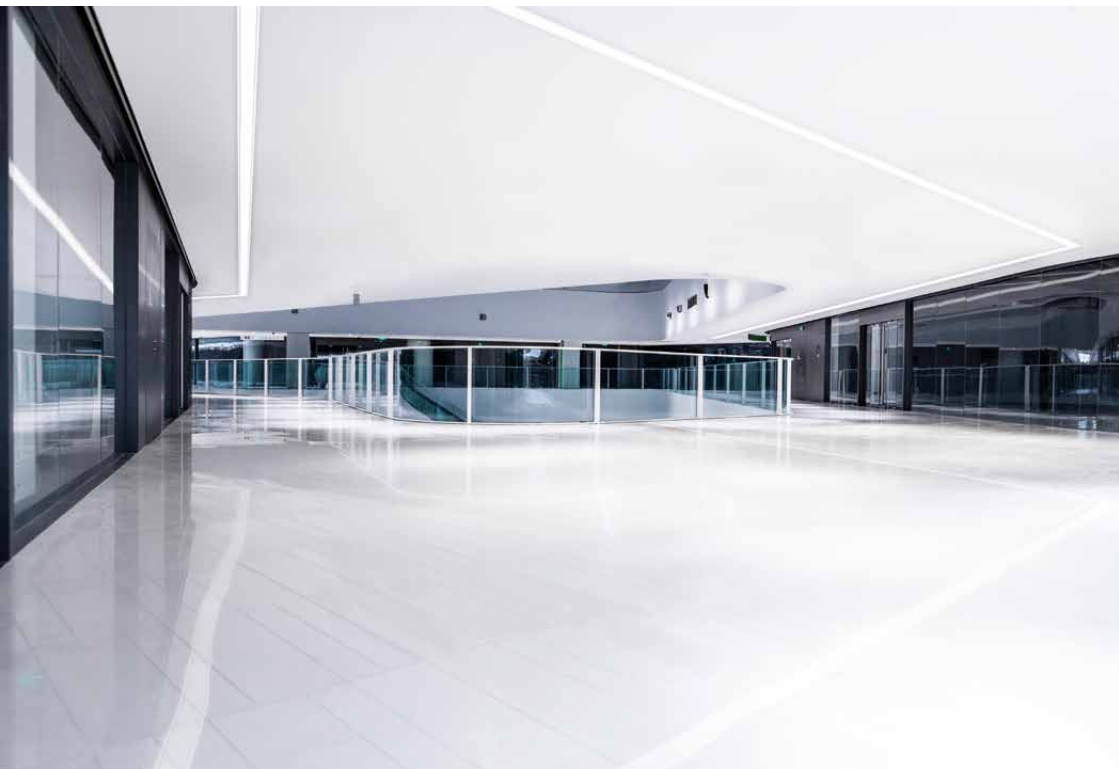

Anna is a first luminaire to be launched of this triple A series.
