Ensto PolyBox

For Demanding Environments

Ensto PolyBox enclosures are rugged industrial polycarbonate enclosures with unique and innovative features, such as the integral nonmetallic latch and a corner elevator mounting system for adjustable hinged front kits and back panels.

More than a box – all the benefits in one enclosure!

- › JIC sized nonmetallic enclosure design with new stylish and robust feel and look.
- › Light and tough – excellent impact and fire resistance
- › Technical features and approval on high level
- › Multiple modification possibilities
 - Holes & cutouts
 - Threads & countersinking
 - Silk-screening
 - Ask for other options!

Design for Durability

Integral Nonmetallic Latch

A robust padlockable nonmetallic latch with only one moving part, providing superior protection.

Corner Elevator System

Ensto's industry exclusive corner elevator system uses a slotted shelf technology that provides solid hinged front surfaces that are easy to install, align and keep level. This system also allows for a back panel to be raised off the back of the enclosure.

Note! The markings help you to install all of the elevator parts at the same height.
